# LAKELAND REAL ESTATE Rob Pellegrini

**Vacationland News is a community and submission-based newsletter focused on business, services, community groups, programs and events in the Lakeland and surrounding area. Watch for profiles, like the one below, for a behind-the-scenes look at the people who contribute to the vitality of our communities!**

Rob Pellegrini has been coming to the Lakeland area for as long as he can remember. He met his wife Jody in their early teens and every summer memory includes lake life. Now with their son, Jaxson (18), the Pellegrini's continue to enjoy quadding, fishing, snowmobiling, boating - all the outdoor activities that draw people to the lake year round.

It is from these experiences that Lakeland Real Estate was forged under the Coldwell Banker Signature Brand. Rob was licensed as a Realtor® in 1985. Over the last half decade, he has focused on Lakeland area real estate and has become a specialized service provider for both buyers and sellers. Rob services only the District of Lakeland lakes - this is a niche market and gives Lakeland Real Estate an edge when it comes to communicating the type of information buyers are looking for. From where and when the sun sets/rises; wind direction; sand conditions; shade vs. sun; naturalized areas; distance to trails, beaches, amenities; etc. This is the level of detail that Rob researches on every property (and the type of information buyers want to know). He also does an extensive interview with each buyer and matches their expectations to available listings.

The thing about Rob is he is a lake guy himself - 'the lake' is a major part of his family's life. When asked why he enjoys working in the area, Rob talked about the appreciation he has for the uniqueness of each cabin. How every property is crafted differently, "it never gets old, walking into someones cabin - meeting the owner is still exciting. I care about what I do, it's not just a job, it's a lifestyle."

The Pellegrini's are strong participants in the community - from attending special events, buying memberships, providing sponsorship and donations to community groups. "This is where I want to be when I retire," says Rob. "It is important to put back into the community."

Those who know Rob, know how hard he works! He doesn't give up and goes above and beyond for his clients. Most days he is working, so you will find him cruising the lake during the only time he can sneak away - at night! Some of Rob's favourite memories have been on his boat, under the evening skies, watching the stars and northern lights - all while listening to his classic 80's music!

We asked Rob for a little property advice and here is what he had to say, "Lake properties are there to build memories on. Keep your investment in a condition where you and your family can enjoy it. Life can change quickly and if you need to sell, it's important to have your property in top condition. People buy at the lake for the lifestyle - make sure your property is well kept so the next person can build memories too."

A message from The Quest Camp

It's a beautiful day at the Lake! Like many camps in the province, The Quest Camp at Christopher Lake has struggled financially when we had to temporarily close our facility to summer camps and rentals (we have reopened now). But we are excited to invite you to a great fundraiser: a Facebook online auction! The auction started Aug. 10, and runs until 11 a.m. CST on Fri., Aug. 14.

There are many unique hand made items, business sponsored items, and so much more. Come check us out, invite your friends, and remember to bid often and bid generously.

## message from the mayor

To the Rate Payers of the Village of Christopher Lake,

I would like to thank you for your support as it has been an honour to serve you all as your Mayor for the past fourteen years. After careful consideration, I have decided to step down and open the arena to new candidates with fresh ideas to bring the village further forward in growth and renewal. I did not make this decision lightly, but feel it is time to turn the page on this chapter and move on to the next.

Sincerely,

Your Mayor - Denis Daughton

## UNDERSTANDING COVID-19 TESTING

**SAMPLE COLLECTION**  
A swab is taken from the inside of the nose or back of the throat.

**PROCESSING**  
Molecular tests detect whether there is genetic material from the virus.

**POSITIVE TEST RESULT**

**TRUE POSITIVE**  
You are currently infected. Almost all positive results are true positives.

**FALSE POSITIVE**  
You are not infected, but test positive (very rare).

**NEGATIVE TEST RESULT**

**TRUE NEGATIVE**  
You are not currently infected. There is no risk of infecting others.

**FALSE NEGATIVE**  
You are infected, but test negative. Can happen when the test is done too early to detect the disease or when sample collection is poor.

**POSITIVE TEST RESULT**  
**INDIVIDUAL ISOLATES**

**FALSE NEGATIVE TEST RESULT**  
**UNAWARE OF THEIR INFECTION AND COULD INFECT OTHERS**

**TESTING ACCURACY DEPENDS ON WHEN YOU GET TESTED**  
Test accuracy based on a 5 day incubation period from exposure to symptoms

INITIAL EXPOSURE	INCUBATING	SYMPTOMS	RECOVERING
<b>WORST (DAYS 0-2)</b>		<b>BEST (DAYS 4-8)</b>	
Days 0-2 Very low virus	Days 0-5 Virus multiplying	Days 5+ Virus plentiful	Days 15+ Virus decreasing
-98% not detected*	-50% not detected*	-10% not detected*	May not be infectious to others
Those tested too early will be unaware of infection and may infect others.	Up to half of those tested will get a false negative result and may infect others.	Low false negative rate.	May take longer to recover from severe disease

\* Based on preliminary data and expert opinion. Some do not develop symptoms. Test accuracy for asymptomatic cases is unclear as it is not known where they are in the disease timeline.

**TESTING FOR ANTIBODIES**

A blood test detects antibodies to the virus that usually start to appear when a person is recovering. This blood test is not used to diagnose active COVID-19.

Research is underway to find out whether antibodies protect you from future infections.

## heritage moments

Presented by the Waskesiu Heritage Museum

**The Breakwater** | The breakwater was constructed to provide shelter for boaters and swimmers alike. It was constructed using teams of horses, logs, and rocks from the area. When the marina and rental boats were located on the waterfront in the townsite, this area was the focus of the community.

An annual regatta featured various water sports like swimming races and many types of boat races. Thousands of people would line the breakwater and banks to watch. The video below shows the popular and amusing "canoe jousting" competition. During the day, the breakwater hosted swimming lessons and sunbathers and a diving board was provided. In the evening, people strolled the breakwater to watch the sunset.

**Gordie Howe on the Breakwater** | In Dorell Taylor's Waskesiu Memories Volume III, John O. Davis tells the story about an encounter on the breakwater in 1955 with NHL hockey legend Gordie Howe, who spent summers here working on the golf course. "The following summer the Howes came again to Waskesiu on holiday, when an interesting event took place. I was sixteen and interested in girls. One sunny Saturday, I was laying on the breakwater with a crowd of girls when along came Gordie and Colleen. Gordie picked me up by the back of the shirt and the bathing suit and dangled me over the water. Against my pleading and that of Colleen he dropped me into the water. I felt embarrassed in front of the young ladies, but wisely held my tongue.

The next day, being a Sunday, the Howes came again to the breakwater all dressed up in their Sunday best – same scenario, except this time I got up and sat on the raised portion of the breakwater so there would be no repeat. Gordie obviously felt that no skinny sixteen-year-old would dare to do anything, but the moment he turned away from me I shot up from the cement and knocked him into the water – suit, shoes, tie and all! I imagine that I ruined a suit and shoes but was not thinking of that in those days. I have often wondered if Gordie has ever forgiven me for his little swim."

## park update

### What's New in Great Blue Heron Provincial Park

Looking for kid's activities while visiting the park? Pick Up P.A.K.

Regular park programming is on hold for this season, but we are making sure that families are still able to explore the park in a safe way. Learn about the natural environment, landscapes and history with these fun and educational activities.

Pick Up your P.A.K. at the Murray Point Campground office, Emma Lake.

### Guided Hikes continue @ Anglin Lake

Thursdays at 11:00 a.m.

Meet at the Anglin Bridge to hike with the Park Ranger to the Tower Cabin, a 6 km round trip. Bring water, snacks and insect repellent. Don't forget your camera as the view is stunning.

Call (306) 982-4741 to pre-register as spots are limited.

## gardens that grow

Jacquie Swiderski is a well-known, local source of information about all things that grow!

### Growing Garlic

Plant the cloves 1 to 2 inches deep in rich soil (add compost or rotted manure if soil is poor). I plant in the fall.

### Growing Asparagus

Do not try to grow it from seed, it takes too long. Buy two year old plants. Harvest very little the second year so that roots build up resources. Add a new layer of compost each year. Harvest early and then leave the shoots to mature to rebuild the root system. The best places are the male plants. Female plants produce red berries and smaller shoots.

### Growing Rhubarb

It needs lots of sun and rich soil. Add compost every year and stop picking the stems by mid July. On dry years supplement the rain. If it goes to flower, cut off the stalks. It may need to be divided and replanted. Give it a year to grow before harvesting.
